Parchas Hazinu 5743 Bedford Hills, New York

Boruch Hashem:
Peace and blessings to the honor of all my dear pupils and may the
Al-mighty bless you.

This letter is directed toward the matter which I was asked many times about -- in reference to meat - about which many people have raised the question -- that the forbidden fats (called chelev) are not properly removed.

According to my personal inspection this very week in the prescence of highly qualified specialists in the art of chelev removal; it was clarified that unfortunately due to our great sins the meats which was bought in these past few weeks from butcher stores renowned for the highest quality in Kashrus was not seperated from the forbidden fat properly.

There remained upon the meat chelev which is strictly forbidden according to our Holy Torah. We found in the meat forbidden fat (chelev) according to our Torah including part from the hind quarters in tact with it's fat.

This is by no means a matter dependent upon various customs or differential opinions of Halachic authorities what-so-ever. Hence it is unanimously forbidden according to the eddicts of our Holy Torah beyond the shadow of a doubt.

Therefore, I sincerely appeal, implore, beg and beseach you all to refrain from consuming any more meat what-so-ever until this deplorable situation becomes completely and properly rectified with the Help of the Al-mighty according to all laws of our Holy Torah.

May the Al-mighty send us His Blessing to be inscribed in the book of good life amongst all of Israel with a year of redemption and salavation.

For verification I hereby attest my signature Rabbi Rafael Blum

This past Thursday Parshas Vayetzei, I received a false letter with the Kausher Rov's letter head written by an unsuccessful forgery. In this false letter, claims that the Kausher Rov'withdrew his ban to entirely forbid to consume meat; due to the fact that many stores were caught red - banded having sold meat with fat(forbidden according to the Torah) being still intact.

This false letter was written by an impostor not only immitating the Kausher Rov's handwriting but his signature as well and sent these letters to all Rabbonim. These people were not content to deceive the public heretofore by selling forbidden fats - but NOW they come even to deceive our Rabbinical leaders.

Terrified by the impact of this letter, I immediately phoned the Kausher Rov shlitah .He was greatly shaken-up; replying, quote: "This letter is completely false and I never withdrew my ban." I inquired, "How oome the Honorable Kausher Rov does not veheminetly protest against this outrage?" He replied as follows: "When I felt I was Capable of accomplishing something for the sake of Heaven, I did according to my limited capabilities. Being that the tragic responsibility of tens of thousands of Jews transgressing daily consumption of forbidden fats innocently, greatly shock me up to the core, thus compelling me extremely, to take immediate action."

of terrorism from those people concerned but nevertheless acted in full accordance to my capabilities to at least arouse my personal students for which I undoubtedly carry the responsibility as our sages of blessed memory state; 'One who can protest and prevent transgression but yet remains silent becomes responsible for their sins.' The thought that after 120 years that I will be held responsible for millions of sins accumulated by eating CHELEV (forbidden fats) as though I, myself, would have eaten this chelev (forbidden fats) and thereby transgress for all eternity, was just much too much for me to bear silence in view of such a bleak scenario. Entirely due to this responsibility of "one who can protest and yet remains silent, he will be held responsible as though he himself actually sinned."

"I was sorely pressed, having no choice in the matter, to completely sacrifice my verywell being and safety by publicizing my declaration to my personal students."

"Thank G-d, my words of exhortation have accomplished a great deal, as told by others, - - - my letter became publicized by Heaven's guidance and tenderly watch over me and my constituents - - wherein many many thousands of G-d fearing Jews who heretofore vaguely understood the meaning of 'punishment by earlier death in this world besides loss of future world in so what ever form it assumes, all due to merely eating CHELEV (forbidden fats), all these blessed people have completely obliterated meat from their menu as per se; hence abstained entirely from further consumption of any animal meat. Although this was not my original intention, I nevertheless profusely thanked my Pather in Heaven that I actually rescued the populace from continuos sinning although-be-it unintentional of set aim, purpose and design." "Satan, it is, who as usuall creates confusion in every cause, has unfortunately succeeded to create dissention from this whole matter by way or political conflict. As long as I can remember from my youthful years, I have always shunned, abhorred and despised Jewish political conflict and want no part of it whatsoever; hence I have refrained from continuing actual involvement." " My students fully realize that when the vastly important matter of NIKEUR will become completely resolved and corrected according to the strict edict of the Torah, I will notify them; not by letter nor by telephone but through methods that will be 100% confidential. Until that time, expect nothing from

I am 100% convinced that a G-d fearing Jew who understands the meaning of forbidden fats or even a doubt of forbidden fats, would definetly not rely upon falsely written matter which can very easily be exposed and proven as forgery especially in the present day and age when deceit and fraud reigns supreme tending constantly to mislead the public and now even the Rabbis in what-so-ever fashion or manner opportunities present themselves toward such fulfillment."

me."

The Kausher Rov requested that I reveal to the public this criminal intended forgery of not only his handwriting but of his name as well and especially to whom ever it may concern.

As a finale; The ban of the Kausher Rov shlitah to obliterate meat from your menu, still remains strongly in force as ever before until such time when we will all be willing to abide strictly by the edict of our Holy Torah.
